

Touchfire

Screen-Top Keyboard for iPad

The World's Thinnest, Lightest iPad Keyboard!

Touchfire® is a revolutionary, new product that makes typing on an iPad fast, accurate and comfortable. Weighing only 3/8 of an ounce and thinner than two credit cards, it adds no perceptible size or weight to the iPad. And it's compatible with all four generations of 9.7" iPads.

Touchfire started off as a Kickstarter project; the most successful tablet-related Kickstarter project ever at the time.

What they are saying about Touchfire

(Touchfire) "turns the iPad into a true laptop killer"

"I love it, I love it! Kathie Lee & Hoda"

"An iPad keyboard that could dramatically alter the tablet keyboard landscape"

"Incredibly simple to use. Typing on it is like typing on a physical keyboard"

The Touchfire Experience

Touchfire lets the user feel the keys on their iPad, rest their fingers on the home row, and even type without looking.

Touchfire Keys

Touchfire's patented keys have just the right amount of resistance and spring-back to make typing feel great..

Always With You...

Attaches magnetically to stay securely in place, and quickly retracts for full screen access.

... But Never in the Way

Touchfire rolls up in the iPad's cover, completely out of the way when not in use. It also comes with its own storage case.
